### BOVRIL AT THE FRONT.

Bovril has played such a conspicuous part in South Africa that it forms no inconsiderable feature of the story. The "Lancet" has had frequent references to Bovril in the reports of the officers of the Royal Army Medical Corps. Nearly every newspaper correspondent has had to refer to Bovril to make his story complete. Rudyard Kipling and Baden-Powell have written their Bovril stories. Over 500 British hospitals and similar public institutions use and prescribe Bovril, not b. of tea, but Bovril.

The reason is not far to seek. Bovril is a nourisher as well as a stimulant. It contains the albumen and fibrine, the sustaining properties of the beer. It is this fact, together with its absolute purity, that commends Bovril to physicians and scientists, and proves its practice what it demonstrates in analysis.

"AMERICA MARU"	SATURDAY, 6th December, at Noon.
"KOREA"	SATURDAY, 13th December, at Noon.
"GALIO"	TUESDAY, 23rd December, at Noon.

THE T. K. K. Company's Steamship "NIPPON MARU" will be despatched for SAN FRANCISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and HONOLULU, on THURSDAY, the 13th instant, at Noon, taking Freight for Japan, the United States, and Europe. Passengers are allowed to break their journey at any point on route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada.

Passengers holding through ORDERS TO EUROPE have the choice of the Overland Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAY; also the CANADIAN PACIFIC RAILWAY on payment of £4 in addition to the regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting Railways, and from Chicago to destination the choice of direct lines.

Special rates (First-class only) to European Ports, are granted to Missionaries, Members of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials located in Asia, and to European Officials in the Service of the Governments of China and Japan.

TO UNITED STATES AND CANADIAN PORTS, Special rates (first class only) are granted and will apply only to Missionaries, Members of the Naval and Military Services, and to Consular and Diplomatic Officials of the Governments of China and Japan.

Return Passage.—Reduction will be made to passengers who do not hold return tickets, making the return journey between ports in the Orient and Honolulu or beyond, within twelve months.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

Freight will be received on board until 4 P.M. the day previous to sailing. Parcel Packages will be received at the Office until 5 P.M. same day; all Parcel Packages should be marked to address in full; value of same is required.

Consular Invoices to accompany each shipment of Cargo or parcel (valued at \$100. Gold or over) destined to Ports, beyond San Francisco, in the United States, should be sent to the Companies' Office with goods in the Bill of Lading at San Francisco.

Merchandise Invoices will be sufficient for cargo or parcel (each shipment) when the value is less than \$100. U.S. Gold.

For further information as to Passage and Freight, apply to the Agency of the Companies, Queen's Building.

"EMPRESS OF CHINA"	Comdr. R. Archibald, R.N.R. WEDNESDAY, 14th Jan.

THE magnificent Twin-screw Steamships of this Line pass through the famous INLAND SEA OF JAPAN, and usually make the voyage YOKOHAMA TO VANCOUVER (B.C.) in 12 DAYS, saving THREE DAYS TO A WEEK in the Trans-Pacific Journey, and make connection at Vancouver with the PALATIAL OVERLAND TRAINS OF THE CANADIAN PACIFIC RAILWAY which leave daily, and cross the Continent FROM THE PACIFIC TO THE ATLANTIC WITHOUT CHANGE. Close connection is made at Montreal, Quebec, Halifax, New York and Boston with all Trans-Atlantic Lines, which passengers to Great Britain and the Continent are given choice of.

Passengers Booked through to all principal points and AROUND THE WORLD. Return tickets to various points at reduced rates. Good for 4, 6, 9 and 12 months.

SPECIAL RATES (First class only) granted to Missionaries, Members of the Naval, Military, Diplomatic and Civil Services, and to European Officials in the Service of China and Japan Governments.

The attractive features of the Company's route embrace its PALATIAL STEAMSHIPS (second in none in the World), the LUXURIANCE OF ITS TRANS-CONTINENTAL TRAINS (the Company having received the highest award for same at recent Chicago World's Exhibition), and the diversity of MAGNIFICENT MOUNTAIN AND LAKE SCENERY through which the Railway passes.

THE DINING CARS AND MOUNTAIN HOTELS of this route are owned and operated by the Company, and their appointments and Cuisine are unexcelled.

## OUR LONDON LETTER.

(From Our Own Correspondent.)

## THE DEAD NOVELIST.

The death of M. Zola is fairly entitled to be considered the event of the week, although other and more material matters have tended to drive it out of sight during the last few days. On the particulars which you will have received by cable, there is no occasion to dwell, though they created a very painful impression here—for that a man of such parts should fall a victim to accident of so trivial a nature seems a pitiful piece of irony. Zola, despite the critics and the moralists, was personally popular in this country, where he made warm friends during his stay in London after condemnation in the Dreyfus business; and it was to some of these British acquaintances that he confided his regret at being regarded as an immoral author. "I write," he said, "the truth that people may hate what is vile in it," or words to that effect. Curiously enough though he liked and admired this country much, Zola never acquired the language, respecting which fact he had perhaps only one regret, viz., his consequent inability to read Shakespeare in the original. When one recalls after what fashion the inimitable bard is rendered into French, the measure of his loss is gauged approximately. Compare, for example, the virtuous salutation, "Hail Macbeth!" with the graceful commonplace—"*Heu bon-jour Macbeth!*" of the French translation.

It is possible that one or two representatives of British contemporary literature may go over to Paris on Sunday to attend the funeral—at which it is greatly to be feared some hostile demonstration may be made by the crowd—more especially as Captain Dreyfus has indicated his intention of following to its last resting-place the body of the man who suffered so much on his behalf.

## SINCE AFFAIRS.

The current *Fortnightly*, contains a very interesting anonymous article on the Sino-French complication, illustrated by an excellent map which may perhaps bring home to the minds of a public always sluggish where Far Eastern affairs are concerned, the extent of that forward movement which French policy is scheming. The author urges with much energy the importance of a settlement at the present time (when several of the principal actors—British, French, and native, are in Europe), of the outstanding questions. He points out the weakness incidental to bad drafting of the 1896 Convention, and insists that this time finality must be introduced, if war between the protecting Powers is not to be left a possible risk for all time. Further the writer emphasises what has hitherto been somewhat overlooked at home, that the construction of the new railway brings Bangkok to within 8 hours of the border of that new province which France is now seeking to claim as within her sphere. The Government which overlooks the strategic importance of Bangkok, commanding the communications between England and the Far East, would surely be blind, beyond even the blindness which perennially affects Downing Street, when its eye is turned towards the Orient.

## EDUCATION BILL.

All kinds of stories have been bandied about respecting the intentions of the Cabinet with regard to the Education Bill, till last night telegraphed to Mr. Balfour asking for a definite statement as to the rumoured abandonment. The reply was categorical. "You are authorised

to state there is no foundation for the rumour." It would indeed seem impossible for the Ministry to withdraw a third Education Bill after prolonged discussion in Parliament, without suffering very badly in credit. It has been done twice with loss of prestige on each occasion, and it is now probable, though perhaps not certain, that the Government will elect to stand or fall by the Bill. Compromise is, however, much in the air, and if rumour becomes fact, the chances of the Bill becoming law, are more remote than if having promulgated a policy which it believes to be fair and reasonable, the Government elects to stand by its own creation. Any further weakening of the fundamentals of the Act would alienate the present supporters who already hold too much has been conceded to mere "howl and unreason"; while nothing short of complete re-casting will gain the Non-conformist, Radical, or openly irreligious voters.

## THE GOVERNMENT AND THE MORGAN COMBINE.

The Morgan combine arrangements have loomed very large in the Press, in commercial, shipping, and general circles all this week, but it is extremely difficult to arrive at sound criticism. There are two clear schools of thought. (a) The Government has been over-reached, and Mr. Morgan gets more out of the Agreement than appears on the surface. (b) Mr. Morgan is distinctly checked, and as in the Tobacco War, this country has scored a decisive victory.

Between these two extremes every possible shade of opinion is freely expressed.

The fact that no British representatives appear on the Financial and Executive Committee, and that in the general Committee they number only five to the American eight, is probably a less unfavourable symptom than that divulged last night for the first time—that shareholders are to be without votes, therefore without the power of calling the directors to account. The whole voting-power is vested in five trustees, of whom two will be British—Messrs. Ismay and Pirrie—and three American of whom Mr. Morgan is chief. In well-informed circles, however, this feature, at first sight somewhat disconcerting, is discounted by the conviction that neither British nor American investors will be inclined to take up shares without votes—and investors are, or at least eventually will be, indispensable to the success of the scheme. The balance of instructed opinion, so far as I am able to gauge it, inclines to the view that we have come out of the concern very satisfactorily.

## P. AND O. COMPANY.

Another shipping rumour is agitating the business world. The P. & O. Company have more than once contemplated removing their final port of call from London to Southampton, and the question is once more seriously under consideration. The loss to London would be about £100,000 per annum, but the port is so defective, and reforms so slow in coming, that all the great steamship lines are dropping away. The two ships now under construction for the P. & O. could not berth in the Docks.

Captain Scott of the *Terrible* has been honoured by a command to stay at Balmoral, whereas China folk will no doubt rejoice only less than the Navy, which collectively has grumbled not a little at the small reward conferred on the leaders of Naval Brigades in

the South Africa and China Wars compared with those conferred on soldiers whose services were at least no more distinguished. It is considered that the present courtesy of the King is to mark his personal satisfaction with the gunnery and other efficiency records of the ship Captain Scott so successfully commanded.

## KWANGSI REBELS IN KWEI-CHOW PROVINCE.

The *N. C. D. News* translates the following from their Chingsha native correspondent's letter:—News was received here the other day that a large body of Kwangsi rebels had invaded Kweichow province and was besieging the city of Hsingyihshien. Immediately after this Governor Yü Lien-san of this city received a telegram from Governor T'eng Hua-hai, of Kweichow province, urging that as Hsingyihshien, which was being besieged by Kwangsi rebels, is near the Kweichow-Hunan frontiers, the authorities of the latter province should send aid to Kweichow and assist in raising the siege of Hsingyihshien and exterminating the invaders. Upon receipt of the dispatch Governor Yü Lien-san was just on the point of sending a strong force over the borders into Kweichow when another dispatch from Governor T'eng Hua-hai arrived informing him that Hsingyihshien had succumbed to the assaults of the rebels who, flushed with victory, were being joined by large bands of desperadoes and rowdies. The dispatch also stated that the Kwangsi rebels were sending out placards proclaiming that the object of their invasion of Kweichow was not to ravage the province but merely to "borrow a passage into Szechuan, whither they (the rebels) were bound for the purpose of assisting the Boxers in that province."

## THE WORD OF HONOUR.

The men who do as they say; the things that prove to be what they were said to be,—how cheering it is to come upon them. We all hate to be deceived; especially when the deception is intentional. But all men are not liars, even if David did say so in his haste. If they were society would be impossible. Everybody knows that business is based on credit, on faith. Millions are bought daily on nothing more solid than the pledged promises of men,—not written, merely verbal. The Stock Exchanges are often called nests of gamblers, yet nowhere is a promise held in greater honour. Therefore when we say that the tried and effective modern remedy called "Wampole's Preparation" never deceives any who resort to it in hope of benefit and cure, we may expect to be believed. For this assurance is given on what it has done in the past in countless cases, on its record. It is only recommended to accomplish what it was made to accomplish. Its action in Chlorosis, Anemia, La Grippe, General Debility, Throat and Lung Troubles, Blood Impurities, etc. is convincing. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It is effective from sensitive and nervous stomachs. It cannot deceive or disappoint you, and comes to the rescue of those who have received no benefit from any other treatment. It stands for the medical triumphs of the age. Sold by all chemists here.

## IT IS DIFFERENT NOW.

Once upon a time students of medicine held the notion that there were as many different diseases as the body has organs and parts; every one of these ailments requiring a different treatment. So stupid a mistake could lead only to miserable failures. For the fact is, the body is a single machine; and what concerns one part of it concerns, more or less closely, all the rest. Thus we see how it happens that one remedy, or mode of treatment, may relieve and cure a variety of complaints,—or what may appear like a variety, but are really various forms or out-comings of the same cause. Take, for example, Anemia, Scrofula, Poverty of Blood, General Debility, Influenza, Throat and Lung Diseases, etc.—a formidable array indeed they look to be; yet

## WAMPOL'S PREPARATION

quickly abates the worst of such cases, and absolutely cures many which have been abandoned as hopeless. The reasons are: its power over the digestive and assimilating process, its action in expelling impurities from the blood, and its consequent ability to vitalize and rebuild the whole structure. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It was not dreamed out, or discovered by accident; it was studied out, on the solid principles of applied medical science. It is precisely what it is said to be, and has won the confidence of the public on that basis. You may resort to it with a faith and hope that arise from the history of what it has done for others. Dr. Frost, Hunt Stucky says: "The continued use of it in my practice, convinces me that it is the most palatable, least nauseating, and best preparation now on the market. Every dose effective. 'You cannot be disappointed in it.' Sold by chemists here and throughout the world and A. S. Watson & Co., Limited.

PLAGUE STATISTICS.—One fatal case of  
plague was notified as having occurred in the  
Colony during the day ended noon yesterday.  
This makes the 56th case since the beginning  
of the year.

A REMUNERATIVE POST.—It is re-  
ported from Bangkok that Mr. J. S. Black has  
resigned his post as British Vice-Consul in  
order to take up another in the Siamese  
Ministry of Justice. It is said the salary is  
£3,000 per annum.

STAGE MONEY BANNED.—The Ameri-  
can secret service department has issued  
orders to its agents in all cities to seize the  
plays and stage money made from them, in  
order that they may be destroyed. In future  
the rule article must be used.

PRINCE TUAN.—It is reported from Pek-  
ing that Prince Tuan and various Chiefs of  
Mongolia have been making preparations to  
rise in revolt assisted by Russia. Prince Tuan  
however has assured Princes Ching and Lee  
through Alashan, a chief of Mongolia, that he  
has no intention of revolting.

CAPTAIN PERCY SCOTT (says a contem-  
porary) is beloved by every man in the ship's  
company. "The measure of his unpopularity  
in his own class is the measure of the inpopu-  
larity of some officers of high rank in the Navy.  
The men idolise him; many captains fear him;  
nearly all admirals hate him. Lord Selborne  
must be referee."

TRUTH DISCOUNTED.—Taotai Yuan of  
Shanghai has written to the Japanese Consul  
General asking him to prohibit the sale of a  
Japanese book called "Hsi-Tihao" or "The  
Empress Dowager," as he considers it contains  
too life-like a description of that august  
personage which the Taotai considers and  
deems it upon the Imperial family of China.

HONGKONG AND TRAFALGAR DAY.—  
The local branch of the Navy League is  
undoubtedly a very energetic body always well  
to the fore in matters of national interest and  
importance. We learn that on the anniver-  
sary of the Battle of Trafalgar the Nelson  
Column in London was decorated as usual,  
and among the floral tributes was a wreath  
specially purchased to represent the Hongkong  
branch of the Navy League. They had pre-  
viously forwarded £5 for the purchase.

THE TERRIBLE RECORD.—The latest  
number to hand of the *Navy and Army* il-  
lustrated contains two excellent photographs  
of the terrible breaking her Hongkong coal-  
ing record in Singapore in August last. In the  
accompanying note, however, we read that the  
coillies were assisted by the men of the  
terrible. This is wrong, the coillies per-  
formed the work entirely by themselves, as  
the *S. F. Press* pointed out in their special  
article re the event at the time.

CONVERSION TO OIL-BURNERS.—The  
Pacific Mail Steamship Company will  
shortly commence the work of converting the  
steamships under its flag into oil burners.  
Plans for the change have been made and  
accepted and the work will be done as rapidly  
as the Panama and Oriental schedules will  
allow. Oil stations will be established in the  
Orient and at Panama. The supply of liquid  
fuel for the Oriental station will be drawn from  
the Russian oil fields. The Panama station  
will be supplied from California.

INTERPORT MATC.—The Hongkong  
Team will fire in this annual event on  
Wednesday, the 12th instant, with Saturday,  
the 15th, as an alternative day, if Wednesday prove  
unfavourable. The following members are  
requested to attend on the Range on Saturday  
next, the 8th instant, and the team will be  
finally selected at the close of shooting on that  
day.—Messrs. Baldwin, Cross, Stackwood,  
Lapsley, Crocker, Jeffery, Griffiths, Davies,  
Parker, Marshall, Pidgeon, Andrew, Pitt,  
Stewart, Lamert, and West.

COTTAM & CO. FOR PANAMA HAT.

THE BURNT STEAMER, *Yoshio Maru*,  
now lying off the island of Two-hima is to be  
sold.

LEAVE OF ABSENCE TO ENGLAND, for  
one year has been granted to Captain S. R.  
Stevens of the 33rd Burma Infantry.

REFUSED ON SANITARY GROUNDS.—  
According to the *Echo de Chine* (Shanghai),  
the request of Messrs. Benjamin, Kelly and  
Potts to be allowed to establish Dyeing and  
French Cleaning Works in the Rue du Consul-  
at was refused on sanitary grounds.

NEW RUSSIAN CRUISER FOR THE  
EAST.—A Russian paper published at Port  
Arthur states that the Russian Government has  
prepared to reinforce its Asiatic squadron by  
a few armoured cruisers which is now being  
fitted out at Kronstadt. She is, the paper  
adds, expected to sail for the Far East by the  
middle of November.

IMPROVEMENTS TO JAPANESE  
LINERS.—The inland oak floor in the *Nippon*  
*Maru's* dining-saloon gave such satisfaction on  
her last voyage to the Orient that the Toyo  
Kaisha has decided to make the same im-  
provement on both the *Hongkong Maru* and  
*America Maru* when they reach port again.  
The *Nippon Maru's* smoking-room is being  
improved and enlarged.

THE NIPPON YUSEN KAISHA.—The  
annual general meeting of shareholders of the  
Nippon Yusen Kaisha is to be held early this  
month when the directors intend to recommend  
a dividend at about the same rate as for the  
preceding period, notwithstanding that the  
earnings of the company for the past business  
year had suffered somewhat by the general  
depression of trade.

JAPAN'S NAVAL SCHEME.—The proposal  
to further extend the Japanese Navy is now  
gaining supporters among the prominent states-  
men in Tokyo. It is reported that Admiral  
Yamamoto desires to construct the cruisers,  
gunboats and torpedo destroyers covered by  
the extension scheme, at the naval yards of  
Yokosuka, Kure, and Sasebo, thus leaving only  
the battleships to be ordered from abroad—say,  
from England.

THE S.S. *FUSHUN*.—As we have already  
notified in our columns the C.M.S. *Fushun*,  
which was burnt at Canton nearly a year ago,  
has been entirely reconstructed by Messrs.  
Furnham, Boyd and Co., Ltd. It seems that  
she has been re-named the *Kwangtuh*. She  
had a very successful trial trip the other day,  
averaging 11 knots per hour. She will be  
under the command of Captain Lunt, her  
former master.

NO POSTHUMOUS HONOURS.—The  
*Peking and Tientsin Times* says, "No  
posthumous honours have been awarded the  
late Viceroy Tao Mu, as he was on the Court's  
black books for urging the Court last year to  
discharge useless officials." The *A. C. D.*  
thinks that those who appreciate in-  
tegrity will realise that this omission is really  
an honour to the late Viceroy of the Two  
Kwang provinces.

RAILWAYS IN TIBET.—It is reported in  
an Osaka paper that one of the conditions in  
the treaty between China and Russia regard-  
ing Tibet was that the railways in Eli and  
Chinese Turkistan (New Umon) should be  
built with Russian capital alone or that the  
Russians should construct the lines in co-  
operation with Chinese capitalists and persons  
of no other nationality be allowed to invest  
capital in the enterprise.

THE FIRST COAL TRAIN.—A wire to  
Tsingtao, dated 30th ult., states.—The first  
coal train, consisting of ten waggon, arrived  
here to-day from Fangtze. There was a cele-  
bration at the railway station, to which invita-  
tions were issued. The manager of the Shan-  
tung-Iberghau-Gesellschaft (Shantung Mining  
Company), Mr. Michaelis, made a speech,  
whereupon Governor Truppel congratulated  
Company upon their success.

SHIPPING TRUST ORGANISED.—Ac-  
cording to a Tokyo cable of the 24th ult., the  
British and Canadian shipping trust, which was  
promoted in opposition to the Morgan Ship-  
ping Trust, has been successfully organised.  
The Cunard Steamship Co. is the chief member  
of the league and the Canadian Pacific Rail-  
way Company and several other shipping  
concerns have joined it. The capital of the  
combine is \$2,000,000 and the Canadian  
Government will subsidise it with \$2,000,000  
annually. The new concern will build several  
mail steamer of from 6,000 tons to 10,000 tons.  
The new vessels will be constructed to steam  
25 knots an hour and for service as auxiliary  
cruisers in time of war, their armament being  
eleven guns. The English dockyard com-  
panies have started work on the designs for  
these vessels.

AN IDLE RUMOUR.—We learn from the  
*Peking and Tientsin Times* that the following  
notice was issued at Newchwang by the Rus-  
sian authorities on the 31st ult. (sic). "Notice  
is hereby given that I, Governor of the Port of  
Newchwang, and Superintendent of the New-  
chwang Customs, have been informed that  
certain Chinese officials are coming to New-  
chwang to take over charge of the City. But  
I have received no instructions to this  
effect from my Government. I am the  
Governor of this place, and it is certain  
that I should receive instructions about hand-  
ing over, and when I do so I will prepare to  
receive the Chinese officials properly and  
provide them with residence. This news,  
however, is nothing but an idle rumour circu-  
lated for the purpose of exciting people, and I  
issue this notification that such reports will  
not be allowed and all persons who spread the  
same will be punished."

THE AMERICAN CONSULATE.—Among  
the passengers by the *A.S. Doric* leaving for  
San Francisco to-day was Mr. W. A. Rublee,  
late American Consul General, who is proceed-  
ing to Washington. He is accompanied by  
Mrs. and Master Rublee.

PREDOMINANCE OF RUSSIA'S FLEET.—  
The arrival of the squadron at Port Arthur,  
says the *Asie* will establish the predominance  
of Russia's fleet over the naval force of Japan,  
whose diplomatists (the *Journal* adds) will  
speedily find out standing questions settled in  
accordance with the wishes of the Russian  
Government.

THE VANISHING ACT appears to have  
been successfully performed at Kowloon on  
Sunday. Mr. Russell, of the Hongkong and  
Whampoa Docks, went out leaving his boy  
in charge of the house, and upon returning  
found the home in a state of general upset.  
Jewelry and money to the amount of \$730 was  
missing, and so was the house boy. The  
police have the matter in hand.

THE ENLIGHTENED GOVERNOR OF  
HUI-CH.—H.E. Tuan Fang, according to a  
Wuchang letter, has lately received private  
dispatches from friends at Peking that H.E.'s  
name has been brought in a recent Grand  
Council Meeting for promotion as Viceroy of  
either one of the three Viceroyships of the  
Empire which are at present being held by  
acting incumbents of Governor's rank, namely,  
Szechuan (Governor Tse Ch'un-hsien), Two  
Kwang provinces (Governor Te Shou), and  
Hukwang (now held by himself).

JANET WALDORF COMPANY.—A special  
notice appears in another column calling atten-  
tion to the opening date of the box play of the  
first production of the season which will be  
inaugurated at the Theatre Royal on Monday  
evening, November 17th. *The Royal Divorce*  
has been selected for that date and the plan of  
reserved seats will be on view at Robinson's on  
Saturday, November 8th. The full strength of  
this large Company will be in the cast of this  
big production. The leading roles are in the  
capable hands of Miss Janet Waldorf,  
whose fine presence, dignity and acting meet  
the requirements for the part of the Empress  
Josephine, and Mr. Norval McGregor should  
make an excellent exponent of the character  
of Napoleon. Besides the Company Mrs. A.  
Dow-Currier has a competent staff to assist  
her in every capacity, which consists of an  
assistant stage manager, musical director,  
mechanics, wardrobe mistress and property  
man. All these features should be a  
guarantee that the productions will be of sterling  
merit. There is every anticipation of good  
business resulting at the box office on Satur-  
day.

## THE KING'S BIRTHDAY.

CELEBRATIONS IN HONGKONG.

Next Sunday being the day appointed for  
celebrating the anniversary of the birthday of  
His Majesty King Edward VII. at stations abroad  
a Royal Salute will be fired from the Saluting  
Batteries at one o'clock in the afternoon in con-  
fornity with the Navy. The Royal Standard  
will float from several flagstaffs, and the Union  
Jack will be unfurled in many prominent  
places. On Monday there will be a general  
holiday throughout the Colony, and at four  
o'clock in the afternoon a review parade will  
be held at Happy Valley.

## BANKRUPTCY PROSECUTION.

BUILDER COMMITTED FOR TRIAL.

Before Mr. F. A. Hazeland, at the Police  
Court this morning, Luk Hang, house build-  
er, was charged on remand with quitting the  
Colony while being claimed in bankruptcy and  
with obtaining money by false pretences.

Mr. H. I. Denny, Acting Crown Solicitor,  
prosecuted on behalf of the Crown.  
Wong Fai, master of the Sam Yick brick and  
tile firm of Station street, Yaumati, said that  
he had transactions with the defendant, and  
about the middle of October bought some  
bricks from him for building thirteen new houses  
at Yaumati. At first he paid cash, but on the 5th  
day of the 9th moon (16th October, 1901) the  
defendant brought him over to Hongkong to  
see Lee Pik Shik and Lee Chow Yee, who, he  
said, were his partners in the Hing Kwe con-  
tractor firm. They saw Lee Pik Shik and Lee  
Chow Yee in the Kwong Mee Cheong firm, and  
the defendant said in their presence  
that they were his partners. Lee Pik  
Shik then told Lee Chow Yee to take him  
to the Wing Hing bank and pay him  
\$330.87 on account of the bricks supplied for  
building the thirteen houses. There was still  
a balance of \$469.30. The total amount due  
was over \$1,000.

Yip Tai, master of the Tai Yick firm, at No.  
62 Queen's Road West, said that his firm dealt  
in tiles and bricks, and the defendant was his  
creditor for \$399 for bricks supplied. On the  
8th moon of last year (September, 1901) the  
defendant went to his shop and wanted to pur-  
chase bricks on credit, but was at first refused.  
When, however, he was informed that Lee Pik  
Shik and Lee Chow Yee were his partners in  
the Kwong Mee Cheong firm, witness believed  
him and agreed to supply him with bricks on  
credit.

Chu Tung Cheong, charge room interpreter,  
at the central station, said that on the 30th ult.  
the defendant was brought into the charge  
room and he and the two separate charges read  
to him. He then made a statement which was  
taken down in writing, and signed by the  
defendant.

His Worship told the defendant that he  
intended to commit him to trial and asked  
him if he had any witnesses to call. The  
defendant replied that he had many witnesses  
to call, but he could not get them at present.  
He reserved his defence, and was committed  
for trial at the next criminal sessions.

THE KOWLOON COLLAPSE  
INQUIRY.

FURTHER INVESTIGATIONS.

The inquiry into the fatal collapse of Nos.  
30 and 32 Kowloon City Road, was resumed at  
the Magistracy this morning before Mr. F. A.  
Hazeland and the jury.

The Acting Crown Solicitor (Mr. H. L.  
Denny) continued the examination of the con-  
tractor, Tam A Ling, who proceeded to state  
that the houses in 10, 1107 were finished in  
March last, whilst those of 1108 were com-  
pleted in April. He noted on the 8th May,  
that the northern wall of Lot 1108 bulged out,  
and also found that the bricks were not dry. The  
only explanation he could give of the collapse  
was that it was due to the typhoon. The  
foundations did not sink. He pulled the  
walls down and had them rebuilt. They were  
finished on the 6th June. Regarding the cracks,  
he informed the court that they were the result  
of typhoons. He could not give any other  
explanation. After the typhoon, two kitchens  
fell in Lot 1107, and some cracks appeared in  
the northern wall, while the plaster came off  
from the western wall. He did not notice any  
cracks in the party wall of Lot 1108. He added  
some tie-rods after the houses were  
finished, but he did not know when they were  
placed in position. After the typhoon the  
southern walls of 1107 had cracks in them.  
He had the walls taken down. The plaster of  
the western wall of Lot 1107 also fell off, owing  
to the typhoon and rain water beating on  
it. He could not say whether  
the walls were plumb or not. He did not  
see any cracks in the party wall of block 1107.  
He had built godowns for the Kowloon Wharf  
and Godown Company. The western walls  
were damaged by the typhoon but were now  
shored up. He had also built twenty-two Chi-  
nese houses for the Godown Company, but there  
were no cracks in the gable walls. There were  
some slight cracks in one of the kitchens. Of  
his own knowledge, Nos. 30 and 32 Kowloon City  
Road were blown down by the typhoon. He  
could not give any other reason. Perhaps the  
occupants did not close the windows. The  
houses were well built, and the materials were  
good. He went over and saw the houses after  
the collapse. He looked carefully to see if  
there were any soft bricks, but found none.  
He had no complaints to make in the way the  
sub-contractors carried out their work.

Ng Leong said that he was formerly a  
carpenter, and was now a partner in the Lung  
Cheong firm. He had a contract to build 30  
houses in Kowloon, for the Land Investment  
Company, and although he lived in Hongkong  
he used to go over to the works every morning  
and superintend it. Tse A. Po was engaged  
for the brick work. The walls and roofs of  
1107 were finished about 20th January, and  
the whole block was ready for occupation at  
the beginning of March. The walls and roofs  
of 1108 were finished from 8th to 16th May.  
He found that the north wall of 1108 was  
out of plumb, and had it taken down. This  
was in the 3rd moon. They were built at the  
end of May. On 18th July there was a typhoon,  
which damaged the two blocks,  
Nos. 30 and 32 collapsed at 5.45 p.m.  
When they fell he was standing on the road  
just at the entrance of the lane opposite the  
two houses. No. 30 went first, and fell on to  
No. 32, causing it (No. 32) to fall back on to  
No. 30. He was quite certain that No. 30 in  
Lot 1107 fell first. Ten men were killed in  
No. 30. About three quarters of an hour  
later, three policemen came and started rescuing  
the buried men. The houses of Lot 1108 were  
not handed over to the Land Investment  
Company. The outside walls of the houses  
of the 1108 lots had two coats of plaster  
on them about half an inch thick, and before  
the 18th July none of it had fallen off, or  
blistered. As far as could be seen from the out-  
side the walls of these two blocks were in perfect  
condition on that day. After the collapse he  
examined the bricks and mortar, and found them  
to be sound and hard. The reason why these  
two houses collapsed was because of the ty-  
phoon. The western wall was not, and had not  
been out of plumb. He first saw the cracks in  
the party wall on 2nd August, after the typhoon.  
The cracks were caused by the wind shaking  
the buildings; they were not caused by the wall-  
being out of plumb. He had a European  
overseer to look after the houses, but some-  
times the man went to look at other houses  
belonging to the Land Investment Company,  
and also twenty houses which Messrs. Leigh  
and Orange were building. The Government  
Inspector of buildings visited the houses, some-  
times once a week and sometimes once in two  
weeks. He also saw all the materials used for  
the building of the walls and the houses. He  
never condemned them. He never said that the  
materials were not good. The architect  
went once and sometimes twice a week to  
look at the job. He saw all the material  
that was used. The contract for the house  
was \$145,000. So far, he did not know whether  
he had made any profit on the work or not.  
The sub-contractors were not all paid yet. He  
did not know anything about the accounts.

By Mr. Wilkinson.—Witness said that he  
was present when the houses collapsed. He  
went round the houses and closed the doors of  
the unoccupied ones. He saw a window on the  
second floor of No. 38 which was not closed.  
He saw the window just before the collapse.

Chap Yip Po, a bricklayer, said he took  
a sub-contract from Lung Cheong to build  
fifty houses in Kowloon City Road. He  
did all the bricklayers' work. He con-  
tracted to do the job for \$107,000. So far  
he had only received \$10,000. The con-  
tractor Lung Cheong said he did not know  
anything about the price of the bricks or  
mortar. He examined the bricks and mortar  
after the collapse. The bricks were good  
and hard. He could not give any reason  
regarding the collapse of the houses.

COTTAM & CO. FOR GENT'S BATH-  
ING GEAR.

Harry Anderson, a Norwegian, who said he  
had been a sailor most of his life, deposed that  
for the last three years he had been with  
Messrs. Leigh and Orange as an overseer. He  
was employed about May last year as over-  
seer with respect to the 50 houses being  
built in Kowloon City Road for the Land  
Investment Company. He received \$66 a  
month as wages and \$5 a month allow-  
ance for lunch hire. In September he had  
30 more houses belonging to Messrs. Leigh  
and Orange to look after, and before  
Christmas had 48 houses more belonging  
to the Land Investment Company to super-  
intend. From November his pay was \$15 more.  
He was at the works every day, and about the  
end of May saw a small crack on the North  
wall of Lot 1108. He showed it to Mr.  
Leigh and the wall to the foundations  
was taken down and rebuilt. On the  
18th July houses Nos. 30 and 32 fell down  
and afterwards in the typhoon of the 2nd  
of August the Southern wall of the block on  
Lot 1107 was cracked, and afterwards taken  
down. Two kitchen walls on Lot 1108  
also fell down in the typhoon of the 2nd August.  
After the typhoon he saw a crack on the Nor-  
thern wall of Lot 1108. He could give no reason  
for Nos. 30 and 32 falling down, for the cracks  
in the Northern wall of Lot 1108, the Southern  
wall of 1107, nor for the cook houses on Lot  
1108 falling down. Good bricks and mortar  
were used in the building of the houses,  
and were in accordance with specifi-  
cations. During the building of these 50  
houses the Inspector of Buildings may  
have visited them when he (witness)  
did not see him. He saw him about once a  
month. He made no complaints to him as to  
the quality of the materials used. The  
architect came twice a week. Sometimes he  
would tell them to use good bricks and mortar.  
He did not complain about the mortar used.  
(Proceeding.)

## EXTRADITION CASE.

PRISONER TO BE HANDED OVER.

Before Mr. E. D. Wolfe at the police  
court this afternoon, Liu See was charged on  
remand with committing an armed robbery in  
a piece goods shop within the jurisdiction of  
the Emperor of China.

Mr. Slade, instructed by Mr. Grist, of Messrs.  
Wilkinson and Grist, appeared on behalf  
of the Chinese Government, and the defendant  
was not represented.

Tung Tai, managing partner of the King  
Cheong piece goods dealer, said that on the  
15th September, 1899, his shop was broken  
into by about 25 men armed with rifles, knives,  
daggers etc. He became afraid and ran into  
his room, but was followed by two robbers,  
who asked him where the money was kept,  
and he told them that he did not know.  
Three other men followed, and among  
them was the defendant, who was armed with a  
sword, and who smashed open the safe and  
took away over Taels 85, besides silk and  
satin. The defendant was well known in  
Canton.

A lieutenant in the native Canton military  
police said that on the day of the robbery he was  
stationed in the Nam Hoi district, and was  
informed of the robbery. He visited the house,  
and found the doors broken, and everything in  
confusion.

Inspector Gidley, of the detective staff, said  
that he arrested the defendant on the 4th  
October, on the application of the Acting  
Viceroy of the Two Kwangs and charged him  
with armed robbery. On the 20th ult. the  
defendant was identified by the complainant,  
and the defendant then made a long statement,  
and Mr. Wolfe ordered him to be detained  
in prison for 15 days after which he is to be  
handed over to the Chinese authorities.

## THE WEATHER.

The following report is from Mr. F. G. F. G.  
Acting Director of the Hongkong Obser-  
vatory.  
On the 4th at 11.30 a.m. The barometer  
has fallen rapidly in N.E. Japan, owing to the  
depression which has moved Eastwards in the  
N. part of the Sea of Japan.  
The barometer has risen over N. China,  
where pressure is now high.  
Gradients rather steep with very strong  
monsoon over the China coast and freshening  
monsoon over the N. part of the China Sea.  
Forecast—fresh to strong N. winds; squally,  
some rain.

## EUROPEAN CHARGED WITH FALSE PRETENCES.

On Friday afternoon the s.s. *Kumsang* arrived from Singapore, and among her passengers was a man named MacIntyre, who proceeded to the Hongkong Hotel and engaged a room. The following afternoon he went to Messrs. Falconer and Company, of Queen's Road, gave his name as Capt. Brooke of the s.s. *Lincolnshire*, and obtained a gold watch, valued at \$280, and a gold locket worth \$60. He promised to return and pay for them on Monday, and proceeded to a pawnshop at No. 43, Cochrane Street where he got \$100 on the watch and \$25 on the locket. His next move was to the Metropole Hotel and matters went well enough for him until yesterday afternoon when Messrs. Falconer & Co. reported their transaction to the police, who secured the man at the Metropole Hotel last night. The gold watch and locket were obtained from the pawnshop. The prisoner was brought before Mr. E. D. C. Wolfe this morning charged with obtaining goods by false pretences, and as he pleaded guilty he was sentenced to six months' imprisonment.

## MACAO NOTES.

(From Our Own Correspondent.)

MACAO, November 3rd.

THE LATE MR. ALBINO SILVEIRA. With the death of Mr. Albino Silveira, which took place on the 31st ult., there passed away one of the best known and most respected gentlemen of Macao. When quite a young man Mr. Silveira joined successively the firms of Robinson and Messrs. Jardine, Matheson and Company at Canton, and proceeded later to Shanghai to accept service with Messrs. Dent and Company. Later he took up the appointment of book-keeper in the leading company of Eastern marine underwriters, the Union Insurance Society of Canton, Limited, retiring on a well earned pension not many years since. The deceased gentleman in 1893 was made a commander of the Portuguese Order of Conception and was also honoured with the knighthood of the Order of San Silvestre. As befitted his literary attainments he was elected a member of the Royal Geographical Society of London. It was through the late Mr. Silveira's initiative that the clock in the tower of the St. Cathedral was presented to this city, and it was by his personal exertions that the scheme was formulated and subsequently approved by proclamation of 26th December, 1893, for a School for Girls. This institution was started in the following year and became known as that of the "Immaculate Conception." Munificent with his private purse his benevolence was yet unostentatious, and thus it was that he verily interpreted the text of St. Matthew, Chap. VI, v. 1, 2, 3, 4.

The funeral took place on Saturday, and it was one of the most largely attended in Macao. The Acting Governor was represented by his Private Secretary, almost the entire civil community, including also the ecclesiastical bodies, was present. Floral wreaths were sent by numerous friends, including a number from Hongkong.

## CANTON NOTES.

(From Our Own Correspondent.)

CANTON, November 3rd.

THE FAMINE. In Canton city we see little of the distress caused by the poor rice crop. But that the famine is widespread is certain. During the last few days, refugees from the famine districts, said to number several thousands, have reached Canton and from Canton have spread to the neighbouring towns and villages. Bands of these may be seen begging in the streets. It is reported that many more are on the way.

## REDUCING THE LAND TAX.

The Nam Hoi and the Pun U magistrates have issued proclamations remitting three-tenths of the government land-tax because of the famine. The officials are evidently anxious regarding the outcome of the present unrest occasioned by the failure of crops. It seems to be accepted as a fact that there will be trouble of some kind before the year ends.

Two nights ago a large band of robbers surrounded the village of Shan Tsun on Fu Ti and looted about one hundred houses.

## HOSPITAL FOR WU CHAU.

The Southern Baptists have been carrying on mission work in Kwong Sai for several years. The work has been largely under the direction of Rev. Thos. McCloy, M.D. A month or so ago Dr. McCloy moved his family to Wu Chau to a house which he had recently built. Now comes the good news that a rich gentleman in New York has given Dr. McCloy six or seven thousand dollars with which to build a hospital at Wu Chau. Dr. McCloy and the Southern Baptist mission are to be congratulated on their good fortune.

## MARSHAL SU AND THE REBELLION.

According to an Imperial Decree, dated 28th October, and translated for the *N. C. D. News*, Hsia Yu-hsin has been appointed Provincial Commander-in-Chief of Hupoh, and Su Yuan-chun (Marshal Su—Translator) has been transferred from the Provincial Commander-in-Chief of Kuangtung to that of Kuangsi. Notes:—As will perhaps be recalled, the insurrection of secret-society men in Kuangsi last year, owing to the fecklessness of modern arms of precision in their hands, was not expected to be very formidable by the provincial high authorities of the Two Kuangs. Just at that time, however, Marshal Su got into trouble with his forces garrisoning Kuangtung province, through an attempt to disband some 10,000 of them without paying the men their arrears of pay, amounting to over six months' wages. The men first objected to be disbanded, having been enlisted to five years, and with three years more to go. In the second place, they wanted their six months' arrears paid first before they would listen to the subject of disbandment and hand over their arms, which are all Mausers of the latest type. Marshal Su then tried to

OVERAWHE THE MUTINOUS TROOPS into submission by a display of force, demanding their arms before paying them their money. To his surprise, nearly one-half of the troops who were with him turned round on the Marshal and joined the mutinous battalions, who forced him eventually to retreat. The mutineers then forced their own regimental officers, on pain of death to join. It was death, any way, to these officers. If they refused to join they would have been slain in anger by their own men; while if they went over to their General he would have made them

## HIS SCAPEGOATS

and decapitated them before the whole army for not being able to control the mutineers. The mutineers shouted defiance to the men who remained faithful to the Marshal, and marched off with all their ammunition, food supplies, and impedimenta to join the insurgents, only a few miles off. This formidable addition to the fighting forces of the insurgents has of course lengthened the rebellion to the present day. Apparently, the powers that be in Peking consider Marshal Su to be primarily responsible for all this additional trouble, and for this reason have transferred him from Kuangtung to Kuangsi, with what ultimate success time alone will show. Translator.

## "SAIKIA MARU" IN COLLISION.

From the *N. C. D. News* of the 31st inst. we learn that at about 11 a.m. on the previous day while the N.Y.S.S. *Saikia Maru*, which had just arrived at Shanghai from Nagasaki, was turning in the river a little above the Garden Bridge preparatory to proceeding to her berth, she came into collision with a Chinese launch which was proceeding down river. There was a very strong flood tide running at the time, and the *Saikia Maru* had her anchors out to perform the swinging movement. At the same time a Chinese cruiser was proceeding up river. From what the journal has been able to learn it seems that the position of the three vessels was such that the only option left the launch was to crash into the cruiser or the *Saikia Maru*, and she chose the latter, striking bow on at the gangway and doing no more damage than could be made good by the painter. Her sails were considerably damaged by the impact, and in scraping along the side of the Japanese vessel she tore one of the latter's life boats out of its position. Several timbers in the bow of the launch were started and all hands were compelled to man the pumps. The *Saikia Maru* proceeded to her berth at once and a launch went out and stood by the launch, which was anchored opposite the P. and O. office, until it was found possible to remove her from the fairway, which was done by the tug *Samson* early in the afternoon.

## THE BRITISH SQUADRON AND EMPRESS DOWAGER.

A PEKING REPORT.

The following report from Peking is now in circulation amongst the Shanghai mandarins. It is to the effect that when the news of the dispatch from Hongkong to Shanghai and Yangtze ports of a large British squadron of armoured ships and gunboats was transmitted by telegraph from Shanghai to the Grand Secretary Yung Lu in Peking, the latter at once went to Eho Park and showed the telegram to the Empress Dowager. The conference between the two is stated to have been very secret, but when the Grand Secretary left the Presence he was distinctly heard to say: "Well, there is no help for it but to send troops to oppose any hostile movements." This he said repeatedly, to no one, however, in particular.

To a great extent, this appears to corroborate the news published in our columns last evening regarding the mobilisation of Chinese troops in the Provinces of Kwangsi and Kwangtung. Meanwhile further advices are awaited from both Canton and Shanghai. Affairs in Hongkong do not seem to have been materially altered, beyond the fact that the warships now appear to have taken all their provisions and stores, &c., aboard and are awaiting further instructions.

## THE MASSACRE CASE.

As so much importance appears to have been attached to the Chenchow Massacre case in connection with the naval activity it will not be out of place to reproduce from a Shanghai journal the demands of Consul-General Fraser, which the Chinese Government consider outrageous. They are as follows:—

- 1.—That the Tu-sze, Liang-ju, who was the direct cause of Mr. Lewis being done to death, through handing him over to the mob after he ran to his camp for protection, be decapitated.
- 2.—That the Tung-ling, Yen Wu-ling, to whose anti-foreignism the affair was originally due, and to whose influence was due the fact that no subordinate official dare give protection, be also sentenced to decapitation, but the sentence may be remitted to banishment to the frontier for life.
- 3.—That the two "promising" officials, Wu the Prefect, and Wan the Hsien, be banished for five years and never employed again.
- 4.—That Colonel Chang, and Commodore Chao, be dismissed the service forever.
- 5.—That a fine of £10,000 be inflicted on the officials and gentry of Chenchow.
- 6.—That a tablet be erected in Chenchow setting forth the crime and the punishment to the eternal disgrace of the place.
- 7.—That all be published in the *Peking Gazette* for the information of the Empire.

## S.S. "IDZUMI MARU" STRANDED

IN THE INLAND SEA OF JAPAN.

The Hongkong branch of the Nippon Yusen Kaisha Steam Navigation Company kindly informs us that, according to cable advices from Japan, the s.s. *Idzumi Maru*, Captain F. W. Horton, has stranded in the Inland Sea of Japan. The mails, passengers and crew are reported safe. The *Idzumi Maru*, which left Kobe for Moji and Hongkong on the 29th ult., is a vessel of 2,300 tons.

It is announced that the s.s. *Yamaguchi Maru* will take the place of the s.s. *Idzumi Maru* on the run to Bombay, but so far the schedule dates have not been fixed.

## CHATTING WITH BROUGH.

MAY NOT VISIT HONGKONG.

An interviewer of the *Sydney Bulletin* has had a chat with Lionel Brough, in which he says:—I had a short talk with Brough. The night before, I had seen him in evening dress making love, coolly and effectively, to a girl upon the stage. Now he was in one of his stores working, sweating-hot and grimy. "Look at my hands," he said, as he knocked the dust off them, "I've been going through my scenery and wardrobe; I'm taking (in measurement) some 300 tons of plant to India and 20 or 30 plays. Yes, the plant weighs more than the plays. Do you know that Mrs. Brough and I have each played nearly 300 parts in Australia; we've never been out of harness except when we're asleep. I sleep only six hours a night; Mrs. Brough scores better. Coming down from Brisbane, I did nine hours right off in the train. That was before Iris. I didn't sleep quite so well after Iris. I have no plans for the future. I am just sitting on a rail. People who have seen Mrs. Brough this time play Paula Tangueray have been so impressed with her that they ask 'Does Mrs. Brough intend to play Paula in London?' I say 'No.' There is no plan in the back of our heads regarding London. Our plans carry us only as far as Shanghai, where the Eastern tour ends. How can we have any plans beyond that? I haven't even decided whether after Shanghai I shall become an actor again; while her I shall ever again put on the wai-paint and face the footlights. It will cost me a dearful heart pang, a big choking in the throat, to say 'Farewell for ever' to all my characters.

There—that is all that is in my mind about my future. The hard work has not knocked me out. Yet, during the whole 15 years that we have been entertaining the Australian public I have never had my plays off my mind. Australia is most fortunately situated as regards plays. Here we produce only London successes: the Londoner has to swallow to failures with every spoon of cream. But the Sydney playgoer has been treated by us to the whole string of London plays. The Sydneyer could see these plays only by attending the theatres over a course of years. The Sydneyer gets the lot in a few weeks, and hasn't to waste a shilling over in seeing a failure.

## CABLE BREAKDOWN AT SINGAPORE.

STAFF DISORGANISED.

The Singapore station of the Eastern Extension Telegraph Company is experiencing just now a situation it has never before had to face in the shape of breakage of cable connection which cannot be determined. The breakdown occurred between Friday and Saturday, 24th and 25th ult., all the northern wires being rendered useless. Investigations were accordingly made from the cable station at Tanjong Katong, and it was found that communication was interrupted between there and town in the connecting cable which runs via Tanjong Rhu. Immediately steps were taken to deal with the trouble, and whilst a sufficient staff of operators has been kept at work at Tanjong Katong receiving messages and despatching them to the Town office by telephone and gaffery for re-transmission, the company's electricians have been hard at work grappling with the cable. It was thought that the current had gone to earth somewhere about Clyde Terrace Market, but the cable was fished up and run through and no break was discovered. This was unusual and of course greatly increased the difficulty of locating the injury inasmuch as the distance tests by which experts can now locate within a yard, are weakened, and the only way of finding where the trouble lies appears to be by cutting in an testing till the break is arrived at. This is an art which will probably be done if it has not been done already. In the meantime the work of the staff has not been so greatly disorganised through men had to be sent to Katong and messages were transmitted over the telephone and by messenger. It is thought that the line must have been strained or got otherwise injured as the insulation remains apparently perfect.—S. T. Pre s.
